

Research & Development RA S.A.

## FOR IMMEDIATE RELEASE

### **RESEARCH & DEVELOPMENT RA SA IS NOW MEMBER OF THE ARGENTINE-AMERICAN CHAMBER OF COMMERCE OF FLORIDA**

Buenos Aires, September, 2015 – Research & Development RA SA has recently joined the Argentine- American Chamber of Commerce of Florida (<http://www.argentinaflorida.org/lacamara.php>), a not for profit organization aimed to connect businessmen, entrepreneurs and leaders in different areas, facilitate contacts and share information for business development and growth in both markets, always promoting integrity and professionalism among members.

With its participation, Research & Development RA SA has become the first Argentine CROs to enter this chamber.

Pablo Liuboschitz, President and CEO at Research & Development RA SA expressed that “We are proud to be the first and now also the oldest Argentine CRO operating without interruption in the Latin American market of clinical trials for more than 20 years.

The AAOC is a wonderful opportunity to enhance our business development strategy and reach out to new clients. We offer customized, cost-effective outsourcing solutions for clinical trials from phases I to IV, as well as support for bioequivalence studies and product registration.

Research & Development RA SA has superior regulatory know-how and local expertise and can guarantee subject protection, high quality data and a successful outcome for your projects. We look forward to networking opportunities and events organized by the AAOC to promote clinical research in the region and to become the trusted partner of other members willing to step out of the comfort zone to bring their clinical research to Latin America in the near future.”

***Research & Development RA S.A. ([www.rd-latam.com](http://www.rd-latam.com))*** is a CRO based in Buenos Aires, Argentina that was created to provide high quality clinical research services to the pharmaceutical and biotechnology industries in the most important pharmaceutical markets in Latin America. More than 20 years of experience, prove our commitment and endorse our ability to successfully implement our clients’ clinical trial programs in the region.
